### **IMPORTANT COVID-19 UPDATE**

We have been closely monitoring the COVID-19 situation and are following the guidance and recommendations from the Centers of Disease Control and Prevention along with the directions of our state and local leadership.

The State of Connecticut is currently under a stay safe, stay home ruling, with non-essential businesses ordered closed. Dexsil Corp., as a manufacturer, has been classified as an essential business and will be able to continue operations. Steps are being taken to minimize any disruption and ensure the continuity of production and timely shipments. However, please consider that lead times may be affected due to the uncertainty of material procurement or other unforeseen issues beyond our control. At this time, we do not anticipate any major disruptions, and we will notify you should there be any changes.

We will continue to carefully monitor the situation daily. It is our foremost goal to ensure the health and safety of all of our staff, and maintain the quality and timeliness of our products and services. We are here to assist you with your orders as well as address any questions you may have. Should the situation change, we have a contingency plan in place and the technology to continue serving our customers.

Sincerely,  
DEXSIL CORPORATION
